#ilsgranada2023
Dear colleagues and friends,

It is our great pleasure to welcome you to Granada (Spain), to the 4th International Legume Society Conference, which will be held between the 19th and 22nd of September 2023. This International Conference, which follows our earlier conferences in Novi Sad (2013), Tróia (2016) and Poznań (2019), aims to stimulate knowledge exchange and interactions among researchers and stakeholders interested in promoting greater cultivation and use of grain and forage legumes, as a necessary path towards more sustainable food and feed systems and healthier diets.

Dr. Paolo Annicchiarico
President of the International Legume Society

Dr. Alfonso Clemente
Chairman of the Organizing Committee

Legume-based value chains: innovation and optimization
Legume-based cropping systems: performance, ecosystem services and profitability
Legumes for human and animal nutrition and health
Legume biodiversity and genetic resource exploitation
Genetics and omics-based legume crop improvement
Legume breeding: challenges, tools, strategies and achievements
Legume physiology, biochemistry and systems biology
Beneficial legume plant-microbe interactions
Understanding and enhancing legume crop tolerance to abiotic stresses
Understanding and enhancing legume crop tolerance to biotic stresses
